TUFFlex Performance Bubble Wrap®

TUFFlex Performance Bubble Wrap® is best suited for surface protection and void fill applications with very short or no distribution cycle. Its co-extruded barrier layer is more resistant to the passage of air than a single layer of polyethylene, which provides longer lasting protection.

TUFFlex Premium Bubble Wrap®

TUFFlex Premium Bubble Wrap® is ideal for less fragile, light-to-medium weight products with short or predictable distribution lifecycles. It provides surface protection, cushioning, and can be used in interleaving or as void fill. The air retention layer maintains consistent cushioning throughout the shipping cycle.
