# TUFFlex Shrink Film

## PREMIUM PLUS SHRINK FILM

TUFFlex Premium Plus Shrink Film provides an innovative technological capability in packaging. This centerfold micro-layer film has enhanced performance compared to significantly thicker conventional films that weigh 30 to 50% more. It also proves to be more sustainable with a lower carbon footprint due to the reduction in material as well as the energy saved because less heat is required in the shrinking process. TUFFlex Premium Plus Shrink Film meets the requirements for SPI recycle code 4 and is a USPS Approved Polywrap Product.

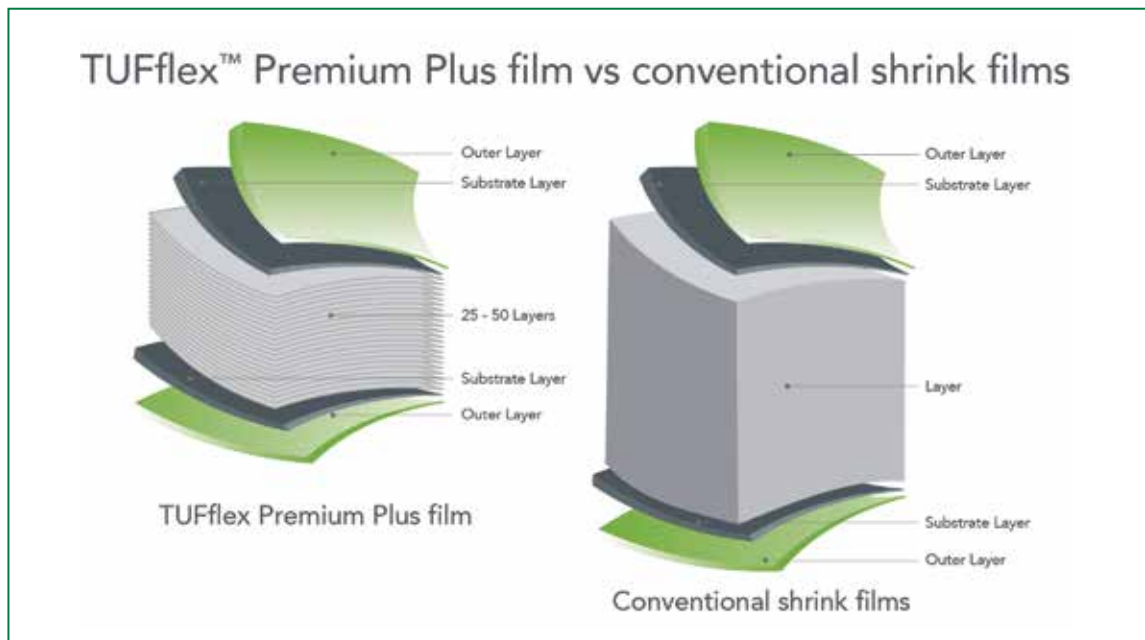

SKU	ITEM #	MODEL	GAUGE	WIDTH (IN)	LENGTH (FT)	PERF PATTERN*	ROLL WT (LB)	CARTON COUNT	RL/SKD

\*Perf Pattern Ex: 7R15 = 7 rows of perfs, 1st row begins 1.5" from folded edge

## SOFT SHRINK FILM

TUFFflex Soft Shrink Film is made from an oriented cross-linked, polyolefin-based material. It is specifically designed for softer products requiring a gentler shrink force and it's combination of easy shrink and easy seal capability make it the most forgiving film in a packaging operation. TUFFflex Soft Shrink Film is ideally suited for applications such as converted paper goods, textiles and other lightweight products and is available in a 60 gauge centerfold format. This film is highly recyclable and is desired by downstream recyclers and converters.
