# Are your stretch wrap products:

Achieving  
the proper  
containment  
forces?

Wrapping  
consistently?

Safely and  
securely  
attached to  
the pallet?

Cost  
effective?

## Optimize your stretch wrapping process with TUFFflex and Veritiv expertise

Improve product protection (containment) while simultaneously reducing your stretch film costs. Veritiv packaging experts will measure and benchmark your existing operation and make recommendations to optimize your stretch wrap pattern.

## Equipment sales and service

Our packaging equipment specialists can turn manual processes into mechanized ones, and do whatever it takes to cost-effectively streamline production. We'll work with you onsite to provide system installation, training, maintenance, and repair services.
